DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, wherein the passive type reactive power compensator provides the reactive power so that power capacity of the active type reactive power compensator is reduced; the active type reactive power compensator of the hybrid reactive power compensation device can supply the linearly adjustable reactive power within a predetermined range; the active type reactive power compensator is adapted to provide with a serial-connected virtual harmonic damping, thereby avoiding the destruction of the passive type reactive power compensator caused by the power resonance.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
